Abstract This is an example of extract text. This is an example of extract text. This is an example of extract text. It is for us, the living, rather to be dedicated here to the unfinished work which they have, thus far, so nobly carried out. It is rather for us to be here dedicated to the great task remaining before us that from these honored dead we take increased devotion to that cause for which they here gave the last full measures of devotion that we here highly resolve that these dead shall not have died in vain; that this nation shall have a new birth of freedom; and that this government of the people, by the people, for the people, shall not perish from the earth.

1 THIS IS AN EXAMPLE OF A HEAD

But in a larger sense we ~~did not~~ **cannot** dedicate we cannot consecrate we cannot hallow this ground. The brave men, living and dead, who struggled here, have consecrated it far above our poor power to add or detract. The world will little note, nor long remember, what we say here, but can never forget what they did here.

This is an example of extract text. It is for us, the living, rather to be dedicated here to the unfinished work which they have, thus far, so nobly carried out. It is rather for us to be here dedicated to the great task remaining before us that from these honored dead we take increased devotion to that cause for which they here gave the last full measures of devotion that we here highly resolve that these dead shall not have died in vain; that this nation shall have a new birth of freedom; and that this government of the people, by the people, for the people, shall not perish from the earth.

This may be a little ~~exaggerated~~ **exaggerated**, but not by much. Is this really what research is all about, what you were trained for and looked forward to doing with your life? Where is the fun and excitement of discovery? Or, God forbid, is this the new definition of “fun”?

2 THIS IS AN ~~EXAPLE~~ EXAMPLE OF AN A HEAD

2.1 This Is an Example of a B Head

The brave men, living and dead, who struggled here, have consecrated it far above our poor power to add or detract. The world will little note, nor long remember, what we say here, but can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work which they have, thus far, so nobly carried out (Figure 1).

2.2 This Is an Example of a B Head

It is for us, the living, rather to be dedicated here to the unfinished work which they have, thus far, so nobly carried out (See Figure 2). It is rather for us to be here dedicated to the great task remaining before us that from these honored dead we take increased devotion to that cause for which they here gave the last full measures of devotion that we here highly resolve that these dead shall not have died in vain; that this nation shall have a new birth of freedom; and that this government of the people (see Figures 3 and 4 and Table 1).

2.3 This Is an Example of a B Head

It is before us that from these honored dead we take increased devotion to that cause for which they here gave the last full measures of devotion that we here highly resolve that these dead shall not have died in vain. Example of unnumbered equation:-

$$A + B = a^4 + 4a^3b + 6a^2b^2 + 4ab^3 + b^4$$

and that this government of the people, by the people, for the people, shall not perish from the earth. Example of numbered equation (1):-

$$\int \int_A \int f(x, y, z) dx dy dz \quad (1)$$

that this nation shall have a new birth of freedom; and that this government of the people, by the people, for the people, shall not perish from the earth.

Example of unnumbered group of equations:-

$$\int \int_A \int f(x, y, z) dx dy dz$$

$$\int \int \int_A \int f(w, x, y, z) dw dx dy dz$$

Example of numbered group of equations (2):-

$$\begin{aligned} (a + b)^4 &= (a + b)^2(a + b)^2 \\ &= (a^2 + 2ab + b^2)(a^2 + 2ab + b^2) \\ &= a^4 + 4a^3b + 6a^2b^2 + 4ab^3 + b^4 \end{aligned} \quad (2)$$

3 THIS IS AN EXAMPLE OF AN A HEAD

3.1 This Is an Example of a B Head

3.1.1 THIS IS AN EXAMPLE OF A C HEAD The brave men, living and dead, who struggled here, have consecrated it far above our poor power to add or detract. The world will little note, nor long remember, what we say here, but can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work which they have, thus far, so nobly carried out. It is for us, the living, rather to be dedicated here to the unfinished work which they have, thus far, so nobly carried out. It is for us, the living, rather to be dedicated here to the unfinished work which they have, thus far, so nobly carried out.

This Is an Example of a D Head The brave men, living and dead, who struggled here, have consecrated it far above our poor power to add or detract. The world will little note, nor long remember, what we say here, but can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work which they have, thus far, so nobly carried out. It is for us, the living, rather to be dedicated here to the unfinished work which they have, thus far, so nobly carried out. It is for us, the living, rather to be dedicated here to the unfinished work which they have, thus far, so nobly carried out.

The brave men, living and dead, who struggled here (1), have consecrated it far above our poor power to add or detract. The world will little note (2), nor long remember, what we say here, but can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work which they have, thus far, so nobly carried out (3). It is for us, the living, rather to be dedicated here to the unfinished work which they have, thus far, so nobly carried out (4). It is for us, the living, rather to be dedicated here to the unfinished work which they have, thus far, so nobly carried out (5–9).
